DR. TOOT'S INCREDIBLE BOOK OF FARTS

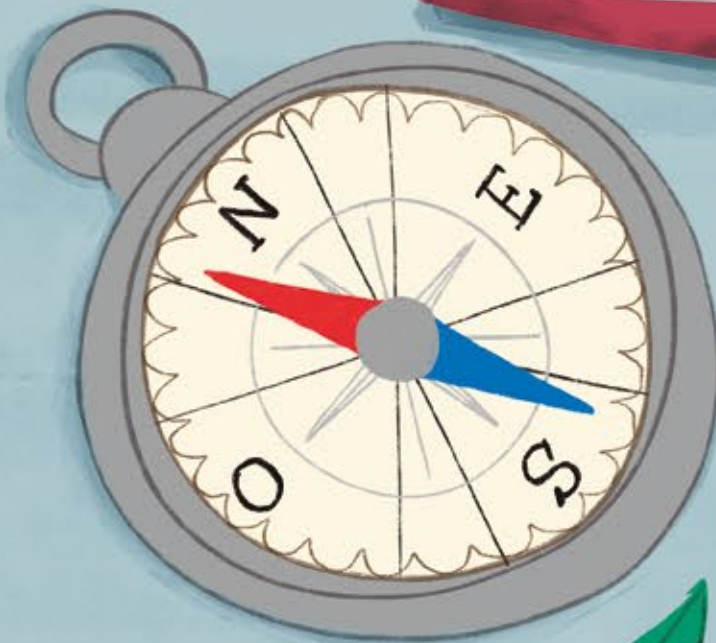

PILAR SERRANO ERICA SALCEDO

FARTS, also known as **gas**, **wind**, or **flatulence**, have sparked giggles and scandals throughout **history...** and even prehistory!

They've even led to **a laugh or two...** in outer space!

DR. TOOT, a world-famous expert,
has spent many **years** investigating farts.

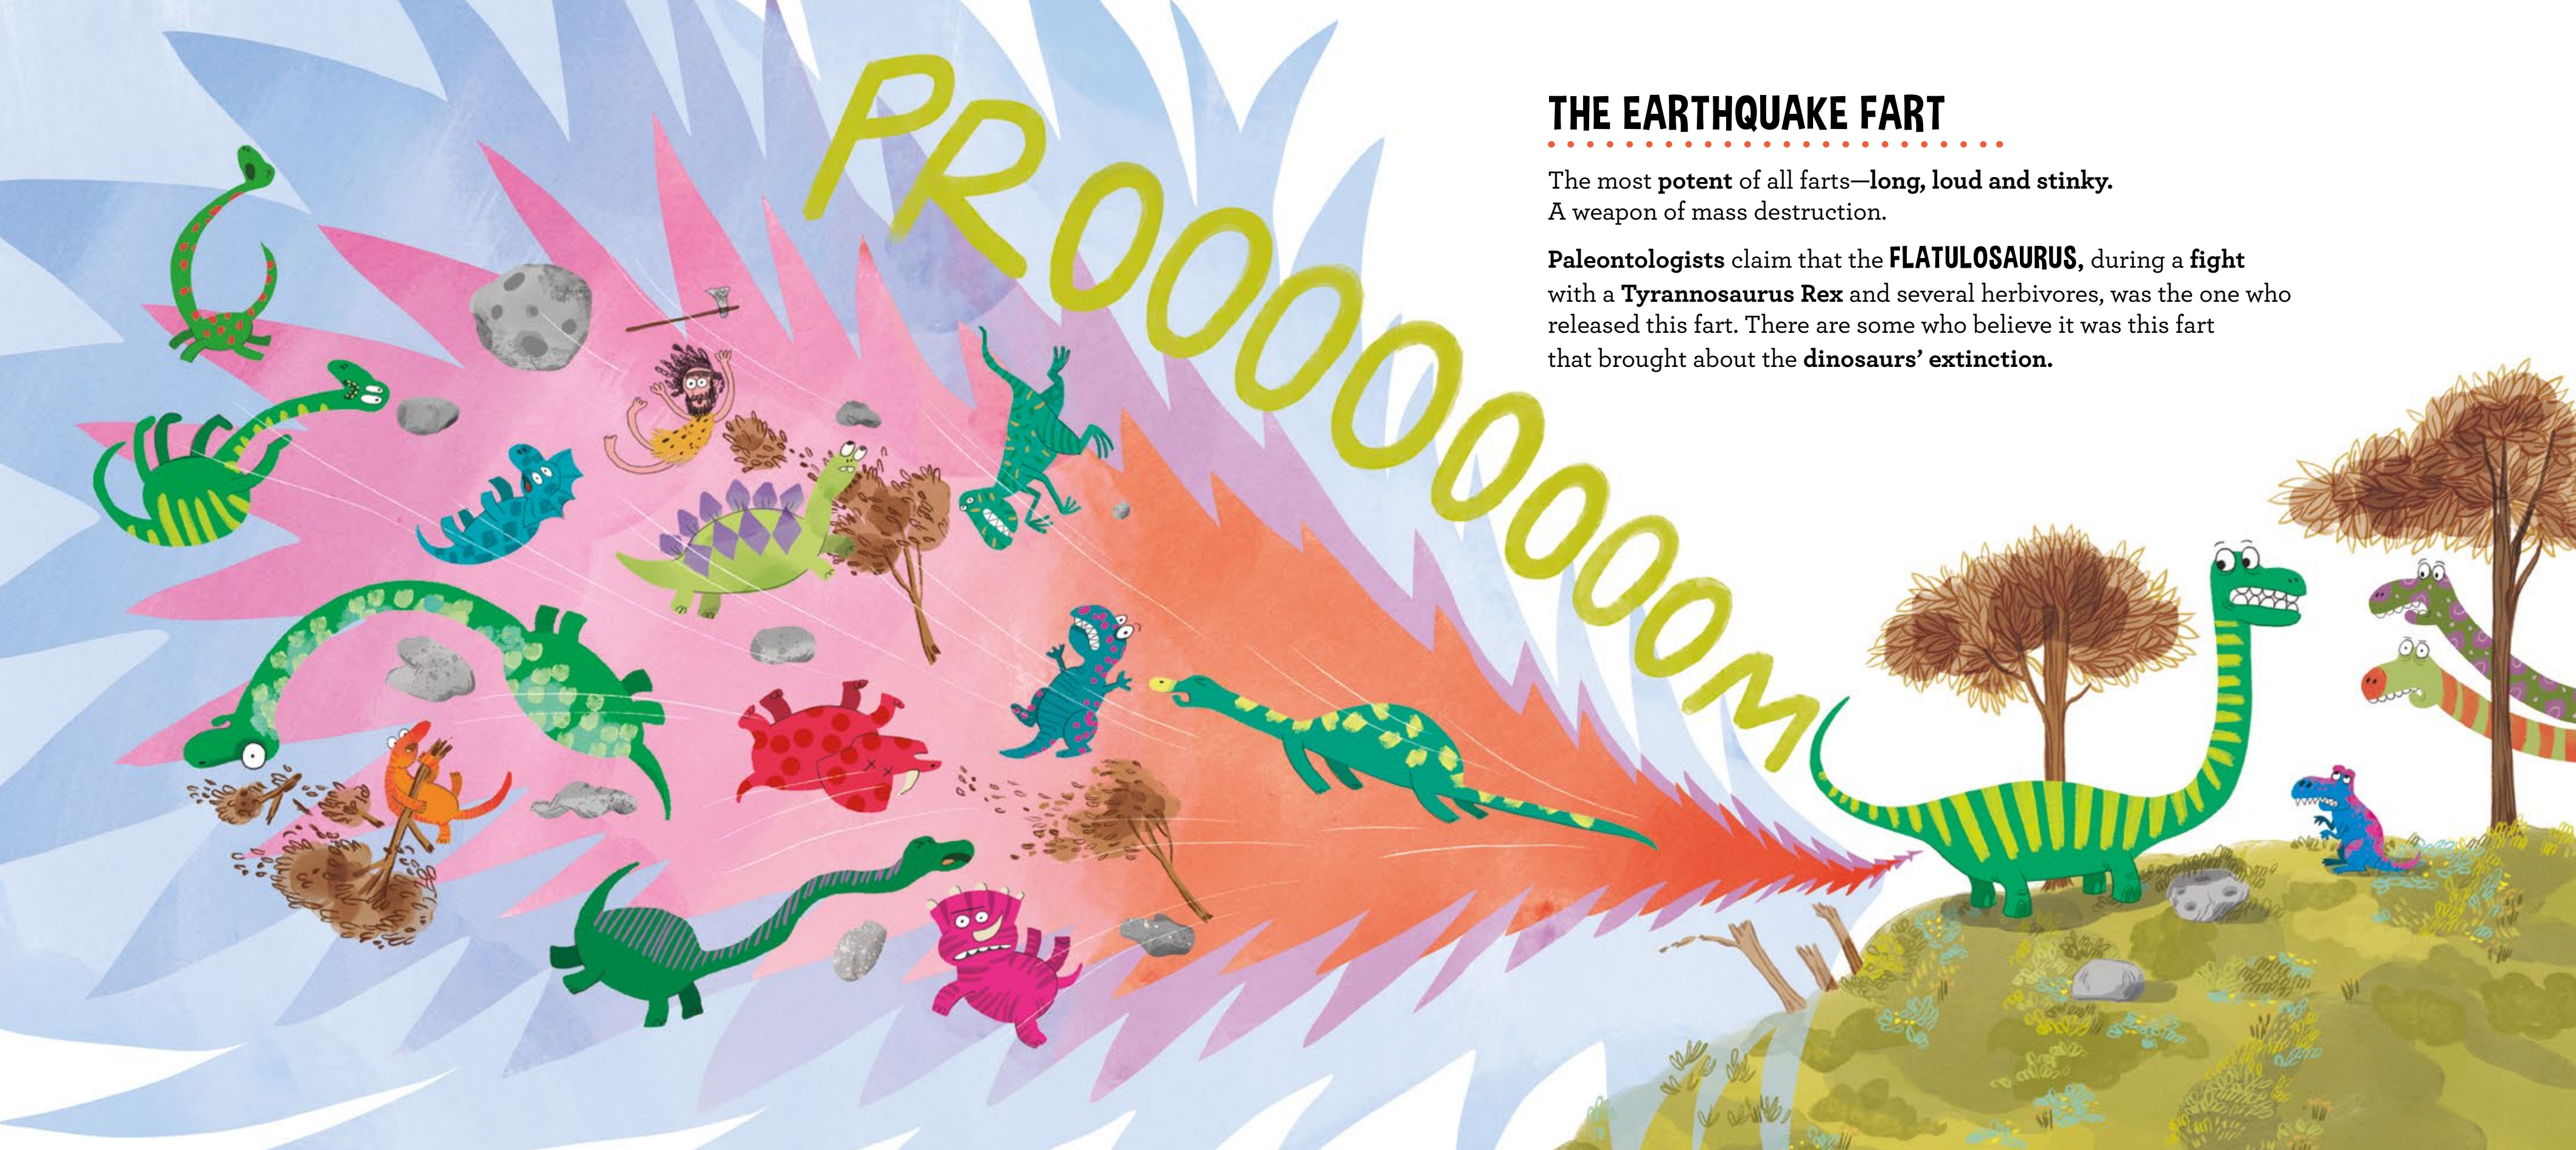

Here are some of the most important types
from his **celebrated classification**.

● ●

A weapon of mass destruction.

that brought about the **dinosaurs' extinction.**

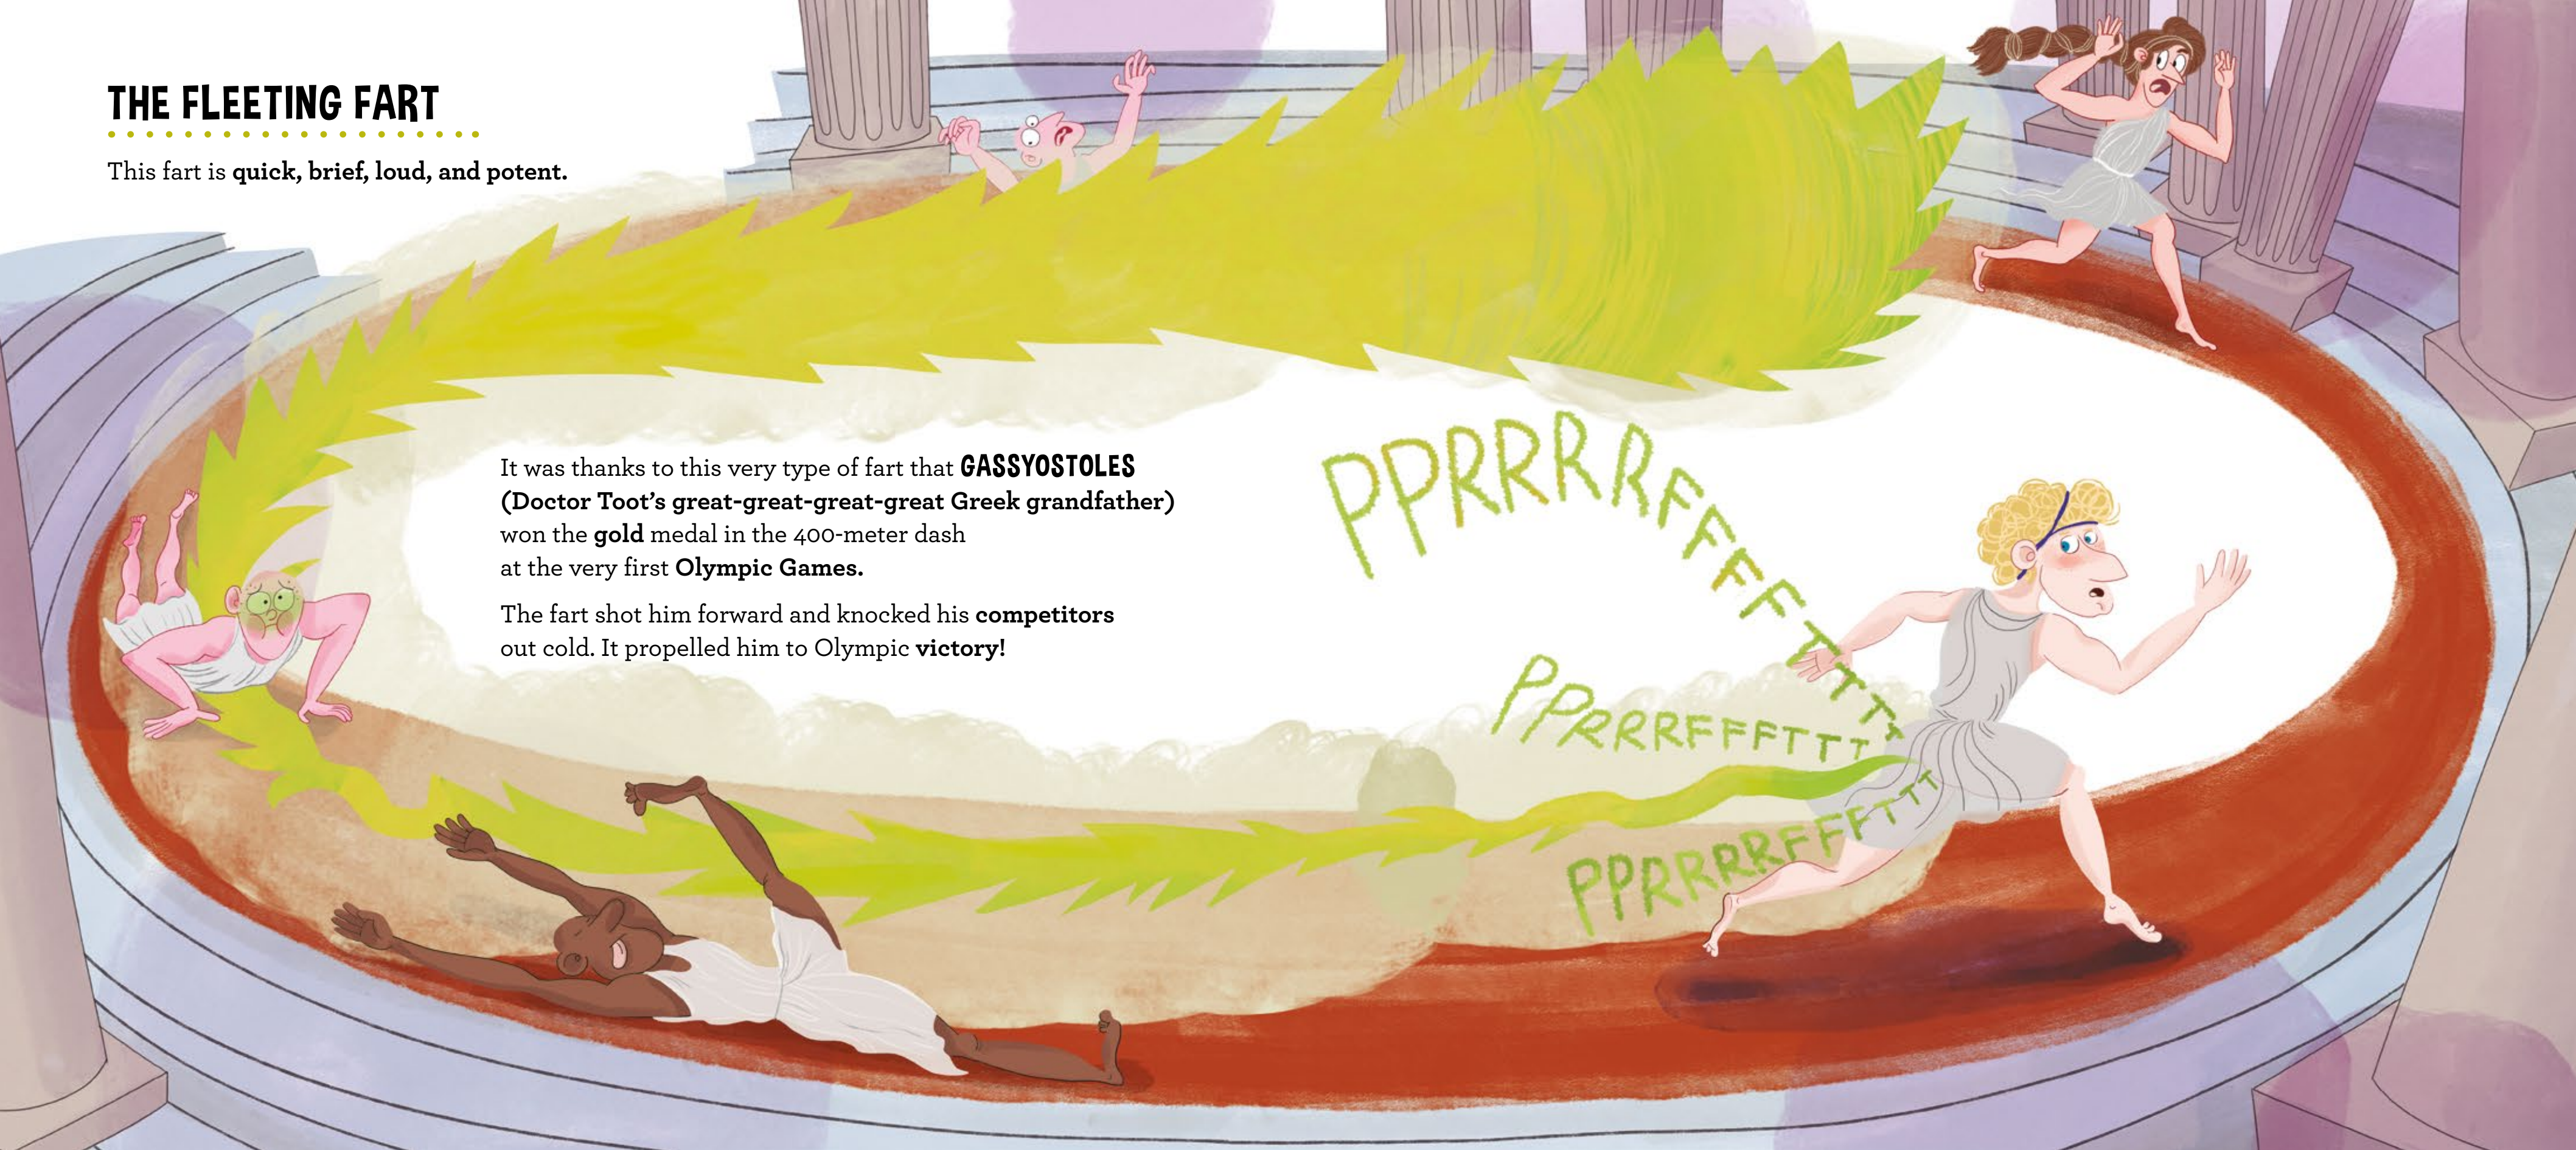

THE FLEETING FART

This fart is quick, brief, loud, and potent.

It was thanks to this very type of fart that **GASSYOSTOLES** (Doctor Toot's great-great-great-great Greek grandfather) won the **gold** medal in the 400-meter dash at the very first **Olympic Games**.

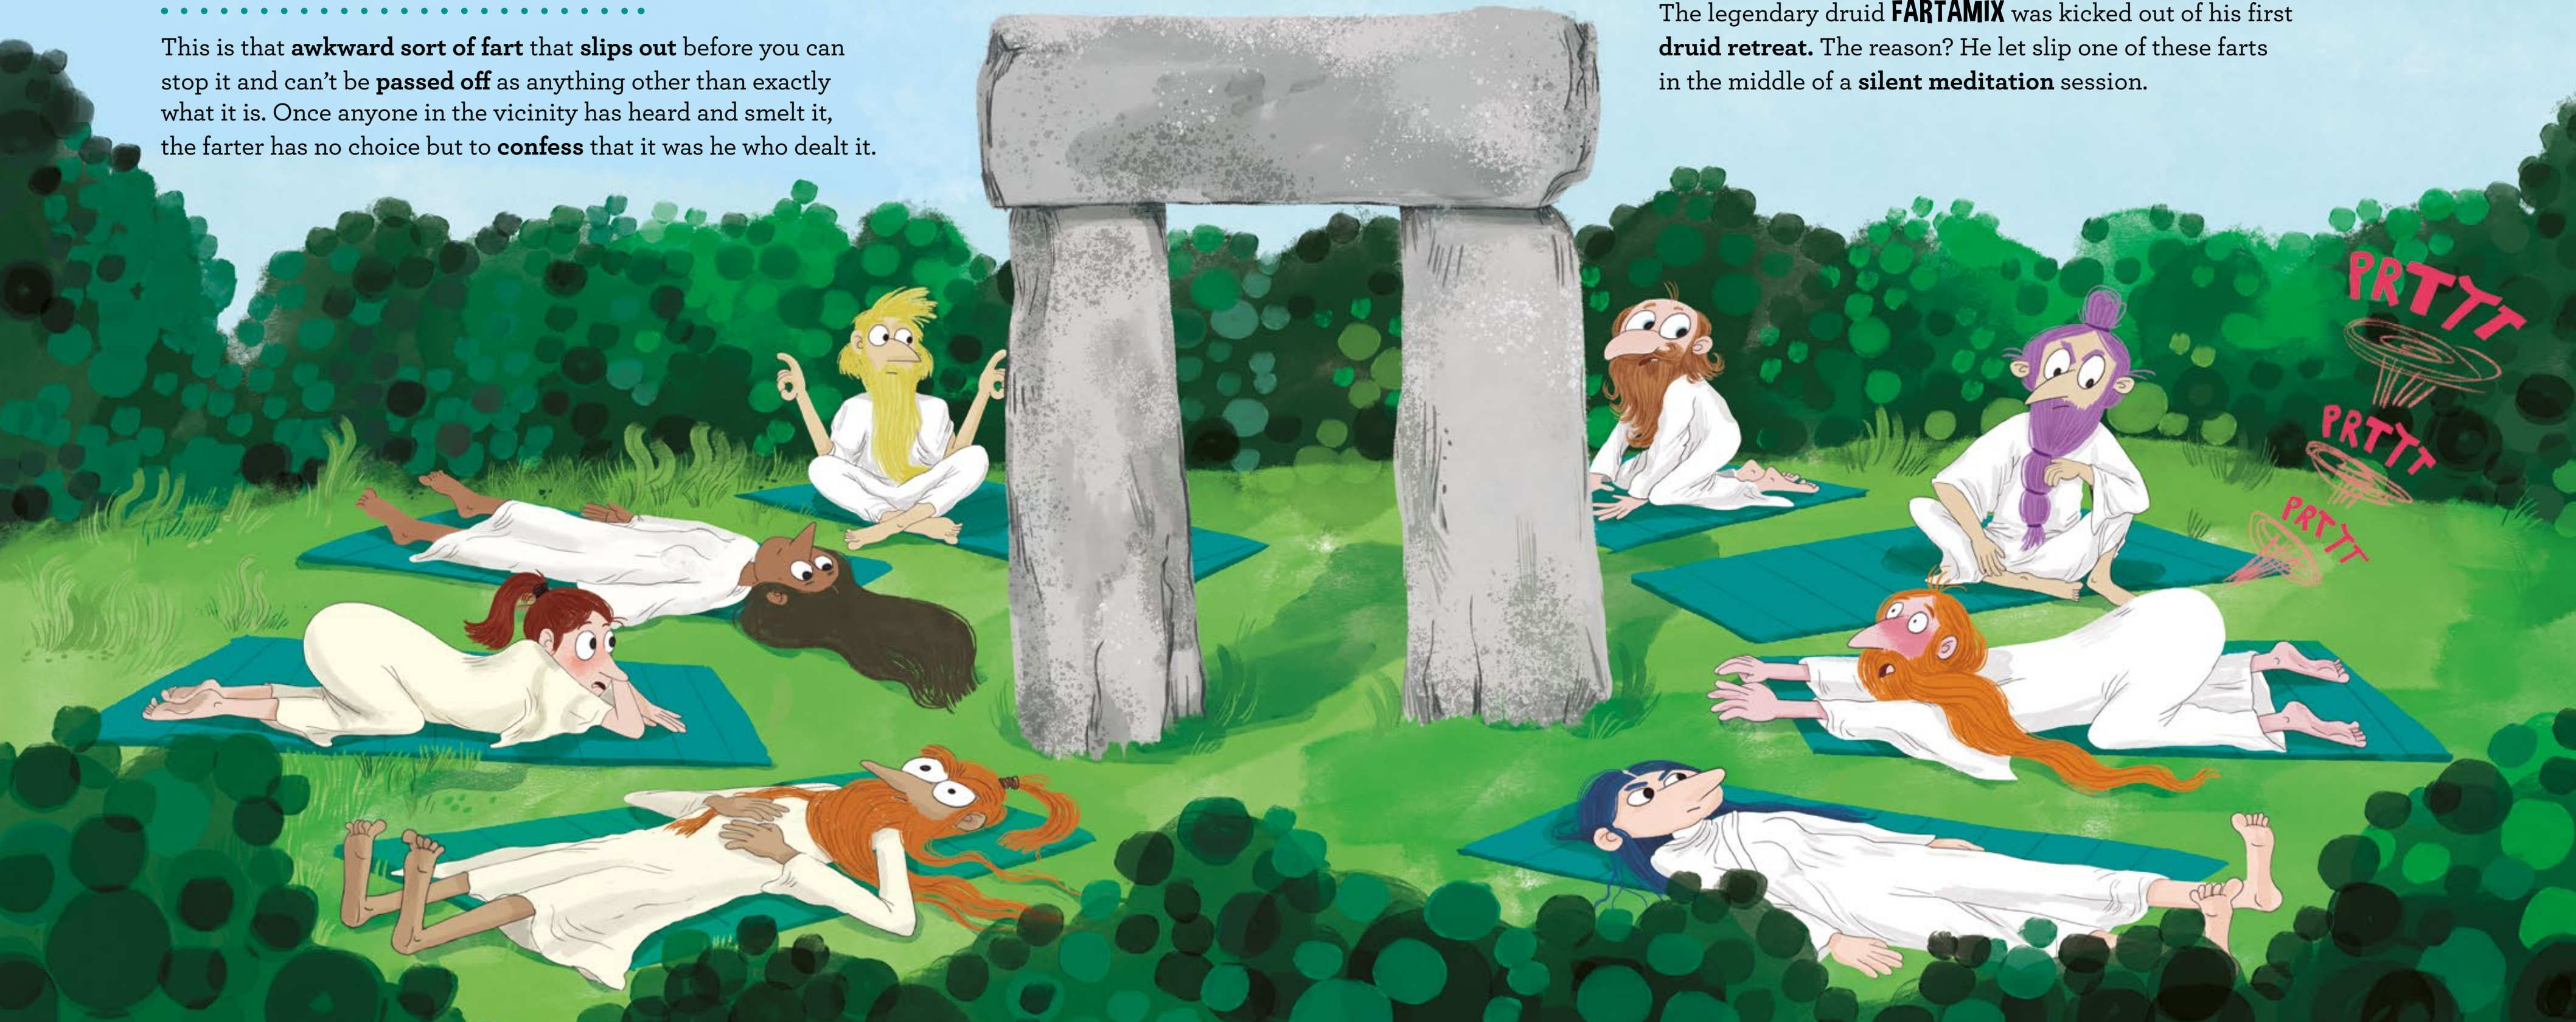

The fart shot him forward and knocked his **competitors** out cold. It propelled him to Olympic **victory**!

THE FART OF TRUTH

This is that **awkward sort of fart** that **slips out** before you can stop it and can't be **passed off** as anything other than exactly what it is. Once anyone in the vicinity has heard and smelt it, the farter has no choice but to **confess** that it was he who dealt it.

The legendary druid **FARTAMIX** was kicked out of his first **druid retreat**. The reason? He let slip one of these farts in the middle of a **silent meditation** session.

THE SPLART

Half **fart**, half **splat**, this one leaves a **stubborn stain** on your underpants.

LEOFARTO DAVINCI, spotting his **soiled underwear** one day, found his inspiration and went on to create an artistic style now **famous** the world over.

Examples of this great painting technique can be admired in several of the artist's **masterpieces**. Although he never wanted to reveal the true source of his **inspiration**.

(Yes, it was indeed his underwear!)
